“After 3 consultations from 3 different doctors, I stumbled across Dr. Carpin. The minute I left the office I called my husband crying! I said, “I AM SO IN LOVE with this Doctor! I have never felt more at home or as if I’m in the presence of a good friend.” He said book it! I’m so glad that I did. After 12 years of living with umbilical hernias, torn stomach muscles, and constant pain I’m a new woman.”
